

Adventure Gear

**Riding bikes is addictive.** Sometimes you just can't get enough. Enough adventure. Enough miles. Enough secluded roads. Enough single-track. Enough cool towns with cool people. And sometimes not enough cargo. That's where a BOB trailer comes in.

We custom-engineer BOB Trailers and accessories using only top-quality materials resulting in the most maneuverable and versatile cargo carriers available. Our durable trailer design is unbelievably easy to attach and detach, allowing you to take up to 70 pounds of cargo with you on virtually any bike, on any road, just about any trail, and definitely on any adventure.

Choose the model that fits your addiction.

(IBEX Plus includes Dry Sak)

Adjustable shock  
w/ minimum 3" of travel

## IBEX

Our high-end trailer with 3" of adjustable suspension so you can easily ride single-track, riverbeds and washboard roads with camping equipment, trail maintenance tools or anything else you might take on your adventure. The IBEX's suspension also makes for a smooth commute or trip to the store since road shock is dampened.

## FEATURES

- Constructed of 4130 chromoly steel tubing with engineered gussets for strength, stability, durability and lightweight performance
- Coil Spring Shock Absorber adjustable for loads ranging from 15 to 70 lbs
- 4 waterbottle attachments
- Elevated swing-arm pivot improves trailer ground clearance and roll-over
- Quickly and easily attaches to and detaches from your bike using our patented BOB Quick Release Attachment System

- Works with bikes up to and including 700c wheels
- Also available as the IBEX 28 for European 28" wheels, 700c road bikes with full wrap fenders or 29er mountain bikes

Wheel/Tire: 16" x 2.125"  
Cargo Space: 25"L x 16"W x 18"H  
Weight Capacity: 70lbs/32kg  
Weight: 17lbs/7.7kg

(YAK Plus includes Dry Sak)

## YAK

The original. Improved and toughened over trail tested time. The versatile YAK is lightweight, durable, easy to attach, carries up to 70 pounds of gear and smoothly tracks behind your bike. This is the gear-hauling rig of choice for adventure travelers, bicycle tourists and commuters worldwide.

Cargo Space: 25"L x 16"W x 18"H  
Weight Capacity: 70lbs/32kg  
Weight: 13.5lbs/6.1kg

## The Beauty of a BOB - Versatility and Ease of Attachment

- Racks and panniers raise your bike's center of gravity and wind resistance, making it twitchy and hard to pedal. The BOB "in-line" design carries the load with a low center of gravity and excellent aerodynamics, making your bike handle better and reducing the strain on you.
- Can be used on virtually any bike - road, mountain (rigid or suspended), tandem, cruiser, hybrid, recumbent or whatever type of bike you own.
- All BOB trailers use the patented BOB Quick Release Attachment System.

Just swap the quick release from your bike for the BOB QR, close the quick release, slip the trailer forks over the QR "BOBBINS," secure the attachment pins and you're set.

## Trailer Accessories

### BOB NUTZ

- For bikes without quick release wheels
- Designed to replace existing rear, solid axle nuts
- Available in different axle diameters and thread pitches.
